Water Play Days: Beginning the week of July 3rd!! The children will be playing outside on the playground and experiencing various forms of water play -- sprinkler, water table, painting with water, water relays, etc. every Tuesday and Friday throughout the summer. We hope to have this summertime fun before it gets too hot during the day. Please have children come in their bathing suits and water shoes (less time used in the classroom getting ready). Also, bring a towel, and change of clothing (labeled with name).

It would be helpful to apply sunscreen at home; however, sunscreen can be applied here. Parents will need to complete the attached MSDE medication form (complete only the Parent/Guardian Authorization Section) regarding permission for us to do so. Please make sure you label the sunscreen with your child's name.
